City Manager

April 29, 2014

Attention Blue Ash Businesses:

The City of Blue Ash is initiating design and engineering services for the intersection of Malsbary Road and Alliance Road. The purpose is to design improvements to the function of this intersection. There is no construction expected to take place this year. During the design process, survey, geotechnical engineering and utility locating crews will be working in this area to obtain data necessary for the preliminary design. It is anticipated that all the required work will be performed without impeding traffic. Survey and geotechnical engineering crews are expected to begin on May 5th and should be completed by the end of May.

We appreciate your patience and understanding throughout this work. If you have any questions or concerns about this project, please don't hesitate to contact me at zbradley@blueash.com or (513) 745-8536.

Sincerely,

Zachary E. Bradley, EI
